ABOUT ME

I am a Full Stack .NET developer passionate about creating robust, efficient, and scalable technological solutions. I am characterized by my analytical skills, commitment to software quality, and collaborative approach to teamwork. I bring over 8 years of experience in web and desktop development, as well as strong expertise in database administration and design. I am motivated to continue growing professionally by taking on new challenges in dynamic and high-impact technological environments.

Professional Profile

Experienced .NET Full Stack Developer with over 8 years of experience in C#, ASP.NET, SQL Server, and web and desktop application development. Proven ability in designing and managing databases using DDL and DML techniques, ensuring performance and data integrity. Skilled in both modern and legacy systems with solid experience in MVC, Web Forms, Desktop Apps, and Front-End technologies (HTML, CSS, JavaScript). A strong team player and effective problem-solver, ca

Professional Experience

Balboa Water Group

- Tijuana, B.C., Mexico | Jun 2021 – Present
- Role: .NET Full Stack Developer
- Developed applications using C#, including MVC and Web Forms, to support both modern and legacy systems.
- Designed and implemented SQL stored procedures with complex logic for optimized data handling.
- Automated backend processes through scheduled SQL jobs for better performance and maintenance.
- Created SSRS reports for improved data visualization and decision-making.
- Built desktop and console applications in .NET, managing the full software development lifecycle.
- Technologies/Tools: Visual Studio 2019, SQL Server 2016, SSRS

Omnex Group

- Tijuana, B.C., Mexico | May 2015 – Jul 2019
- Role: .NET Full Stack Developer
- Developed a .NET web application for call center operations, enhancing task tracking and KPI monitoring.
- Designed and built a desktop application integrating RESTful APIs for secure communication with multiple banks.
- Focused on improving user experience and system efficiency across platforms.
- Technologies/Tools: Visual Studio 2010, SQL Server Management Studio
